

Our Lady's Primary School

Client	The Roman Catholic Trusts Corporation for the Diocese of Melbourne
Project	Our Lady's Primary School
Location	Surrey Hills, Victoria
Services	Full Turnkey Solution

Overview

Fleetwood was contracted to deliver full turnkey solution for Our Lady's Primary School.

The project was procured through The Roman Catholic Trusts Corporation for the Diocese of Melbourne and involves the demolition and refurbishment of an existing building as well as detailed fit-out of the general learning space and external works.

Solution

Fleetwood was responsible for the demolition of the existing structure, initial site set-up, off-site prefabrication of a 2 storey General Learning building that connects to an existing Science building.

Fleetwood delivered a total of 33 modules including 8 general learning areas, a large multi-purpose room, breakout areas, decking, stairs, lift and accessible amenities.

Benefits

The new two-storey modular building provides Our Lady's Primary School with a contemporary learning environment that seamlessly integrates within the existing teaching spaces.

Fleetwood's modular solution means that the majority of construction works were able to be completed offsite, minimising the disruption to the school community.
